

SUYASH DEO

MSc Computer Science Student

☎ +91-7378826927 ✉ suyashdeo122@gmail.com 🔗 [linkedin.com/in/suyashdeo](https://www.linkedin.com/in/suyashdeo)

Summary

Computer Science student with hands-on experience in full-stack development and modern web technologies. Skilled in JavaScript, Node.js, PHP, Firebase, MySQL, PostgreSQL, and MongoDB. Passionate about backend development, software engineering, and building scalable applications with strong problem-solving and teamwork skills.

Skills

Programming & Querying: SQL, Python, PHP, JavaScript, Java

Web Technologies: HTML, CSS, React.js, Node.js, Express.js, Bootstrap

Database & Backend Services : MySQL, PostgreSQL, MongoDB, Firebase, Convex

Tools & Platforms: Git, GitHub, VS Code, Postman

Concepts: Full-Stack Development, REST APIs, Database Management, Problem Solving

Education

DES Pune University

Master of Science (M.Sc.) in Computer Science

Pune, Maharashtra

2026 – Present

Marathwada Mitra Mandal's College of Commerce

Bachelor of Science (B.Sc.) in Computer Science | CGPA: 7.77 | Grade: A

Pune, Maharashtra

2022 – 2025

Experience

Web Development Intern

May 2026 – June 2026

CodSoft (Virtual Internship)

Remote

- Worked on web development tasks and projects as part of a 1-month virtual internship program.
- Developed responsive web pages using HTML, CSS, JavaScript, and modern development practices.
- Improved frontend development, debugging, and problem-solving skills through hands-on project work.
- Collaborated on assigned tasks while gaining practical exposure to software development workflows and version control.

Projects

TrainerOS | React Native, Firebase, Node.js, MongoDB

Feb 2026 - Present

- Developing a fitness trainer-client management platform with workout tracking, progress monitoring, and authentication features.
- Built responsive frontend screens and integrated backend services for real-time data management.
- Designed scalable database structures and implemented user-friendly UI/UX features.
- Worked on API integration, authentication, and application performance improvement.

TripTales | PHP, PostgreSQL, HTML, CSS, JavaScript

2025

- Built a travel-based web application for exploring destinations and managing travel-related content.
- Developed responsive frontend interfaces and backend functionalities using PHP and PostgreSQL.
- Implemented authentication modules, CRUD operations, and dynamic content rendering.
- Improved database management and backend logic handling through practical development experience.

Certifications & Achievements

Research Paper Presentation: Presented a research paper on nature-inspired optimization algorithms for the Travelling Salesman Problem (TSP) at ICAISS-2026.

Virtual Internship: Completed Web Development Virtual Internship at CodSoft.

AWS Machine Learning Course: Completed coursework covering supervised learning, forecasting, SageMaker, and machine learning fundamentals.
